FLUGBLÄTTER

This exhibition is the result of the network project **Flugblätter** for which the artist **Birgit Jensen** invited 130 (inter)national participants. She asked them how they, as visual artists, respond to the latest developments in a globalised world. What position do they take and how do the changes and attendant social tensions and conflicts influence their work?

Each expression of the 130 artists reflects another aspect of our time - be it social, philosophical, political or ecological. It shows that the artistic thinking is rooted in a specific social experience.

The dutch artist **Sigmund de Jong** (* Soesterberg, 1962) was asked to develop a wall concept for Pictura's exhibition spaces that will visually connect the various contributions.

This exhibition was curated by Birgit Jensen and Teresiña Talarico. A first presentation of the Flugblätter project - by Birgit Jensen and Barbara Camilla Tucholski - was shown at the artists' estate Künstler Gut Loitz e.V. in Loitz an der Peene in Mecklenburg-Vorpommern, Germany.

You are cordially invited to the opening of Vluschrift on 17 February at 5 pm.
